

Welcome to the 2016/2017 school year! We are looking forward to working with you and your families over the course of the school year. Our aim is provide a comprehensive, developmental counseling program addressing the academic, career and personal/social development of all students. Counselors will work with educators, parents or guardians, and the community to facilitate a support system, ensuring that all students at Pathways Academy of Technology and Design are prepared to perform at the highest level and become contributing members of society.

In this Newsletter we have compiled some important dates to be aware of as well as resources to benefit you, such as college visits to the school and college open houses. You may register to attend the college visits through Naviance.

I would like to introduce our school counseling Intern for the year, Mrs. Ignatowicz (Mrs. I). Mrs. I is working on her masters degree in school counseling at CCSU and will be with us on Mondays, Wednesdays and Fridays. Michelle completed her Undergraduate degree in 2009 and taught art for five years before pursuing school counseling.

Save the Date!
